
Title: Elven History

Author: Sertorius

Elven History is held deep within the darkness of history. It is said that at the dawn of time in the Old World there were 3 main humanoid races, the Caines (now called the headless) and the Mongs (now called the Mongbats). Legend has it that all 3 races existed in peace and harmony in a lush tropical forest. Another race the Orcs had barely begun to civilize and Humans were unheard of. The Elv were Hunters, Tamers and Mages they were also very good Tailors and Cooks. An Elv named Imperious Rex (an ancient relative of today's Eros Rex) led them during this wondrous time. Elv was the race of magic just as the Caines being the thinkers that they were enjoyed the sciences and The Mong's exploration. It was the Mong's that discovered the Snake people and later the Spider folk. The war with these two races would cost all dearly. It was war that lasted 400 yrs and when it was done the Caines had been mutated into a Headless brutal race that was born pregnant and spawn mindlessly and attacking any that are not there own. The Winged Mongs were De-evolved to a mindless brutal race of

flying monkeys. And The
Elves were turned into
homeless nomads' left to
wander the world in
search on a home. Three
such Elv were named
Mystic (not to be
confused with Mystic One
of today), Guythan (great,
great, great grand father
of Guybrush) and Zazaron.
These 3 Elves are
credited with founding the
New world by following a
cave beneath an ancient
elven burial ground. It
was these Ancient Elv
that founded the city of
Shar, which is legend to
be buried beneath where
Vesper now stands. Shar
was the shinning glory of
the New World and even
the Elv that stayed
behind now lead by The
Great Iceron had heard
and wrote of it. And so
it was until the Humans
came to that world and
founded Britannia. Ratmen,
Lizardmen, Dragons and
the horrid elv only
disease known as the
Elves Bane plagued Elves
at that time. The Elv and
there leader the ill-fated
Iriana could not hope to
cope with all of this;
Mortals were the final
straws that forced the
Elv to all but fade from
existence. Mean while the
Elv of the, Old world
were also dealt a harsh
blow for the settlement
was again set upon by
the Snake and Spider
people only this Time the
Gods themselves were
involved! The Gods of
Olympus aided the Mad
Drakkon, 1st Emperor of
the Elv in his holy war.
The Titans aided the
snakes and spiders. This
war left the Elv in
victory but also left
their kingdom an empty

and baron place. The once tropical forest was left a barren desert, but the Snake people were driven back forever and the spider people fled even further away. This was known as the Blighting, the war left the people with a land but no history. All knowledge of the New World was wiped from their history and the great forest Elv were now a Desert people, nomads their only minor competition were the Mongs and the Headless that spawned around them. From this Land came Eros Rex and his Royal peers Oakliegh, Theone, Guybrush, and Donavon. They were all friends and Eros was Eldest in a line of Royals. It was they that found an ancient and deadly entry into the New World that led from the desert to an Island paradise called Serpents Hold. The Older Elves went there separate ways leaving the two Younger ones (Eros and Guybrush) on the Island to fend for themselves.

It was here that Eros met his Cousin Elves the Mystic One, Zazar and Mulch. They were all members of a Royal house that fled the main land for Serpents Hold soon after the fall of Shar. Mystic One and Zazar were reforming the Kingdom when Eros met them and shared with them the secret Elven sign of Royalty.

Upon recognition of the Sign they share the stories and legends of the Great elv in their past. They then set about

with the help of Gunther,
Theone and many others
to re-build a Kingdom of
Elves. Regal Elv were
found and others as well,
even a few that seemed
not to truly care for
the Elves and indeed in
time turned out not to
be Elv at all! The Elven
kingdom had grown fast
in a short time under
them. But as the kingdom
grew Mystic and Eros
grew apart, as Eros
longed for a return to
the old ways and a
return to the Old
Country and the Island of
Serpents Hold. The
Hustle, Bustle of Britinia
being too much for Eros,
he and a few select
members of the Kingdom
decided to Return the
Elves to its former glory
in the days of old and to
go back to the old
country and re-claim the
kingdom as their own.
These Lords of ELSe
Lead by Eros Rex and
Prince Icewalker and
joined by His Fellows
Shar Darkstar and Bane
Resse will now venture
out into the new world
to set about the
rebuilding of the Old
Kingdom to a higher glory
ever before known.
